(the predicted cosmological constant is related inversely to the square root of the total ... **the spin-foam approach to quantum gravity - springer** - quantum gravity, since the very notion of spacetime geometry is most likely not defined in the deep quantum regime. secondly, quantum field theory is plagued by singularities too (uv divergences) **generalized uncertainty relations, curved phase-spaces and ...** - c. castro 1871 bert-schwarzschild black hole metric in spacetime was found. the most relevant phys-ical consequence is that the metric becomes momentum-dependent (observer depen-
